I love the hardwood floors, crown molding and bay windows.

You also love the brand new roof and well kept lawn. Because after all, your home is your castle. And Safeco InsuranceTM is the moat around it. Our job is to anticipate the things that can happen, and then do all we can to prevent or minimize your loss. Whether it's a catastrophic storm — or a baseball through a window — you can count on Safeco to make it right.

Premium insurance. Without the high premiums.

- You can save up to 15% on your premium when you combine your Home and Auto policies with a Safeco Package
- Homeowners Insurance from Safeco is a real value. You can receive significant discounts if your home includes a sprinkler system or a burglar alarm. Your local Safeco agent can help identify ways to save based on your individual situation.

A friend in need

- · Combine multiple policies as a Safeco Package and become eligible for a single loss deductible*. If you experience a significant loss, like a fire or storm, that is covered by your Safeco Homeowner Policy and have other Safeco policies that are affected, like an auto or motorcycle, we may waive all deductibles after the home policy deductible is paid.
- · Safeco's 24/7 claims service is fast, fair and hassle-free. If you need to file a claim, simply call 1-800-332-3226 and we'll do the rest.

Covering more than your home

- Safeco not only protects your home, we cover your belongings in your home and on the road. So, if your laptop is stolen from your car, or someone injures themselves on your property — you're protected.
- · Strengthen your coverage with optional enhancements, like equipment breakdown insurance, (which covers many major appliances), and identity recovery coverage

^{*}Single Loss Deductible options and availability vary by state
