Team Sublimity

Our staff is comprised of technically knowledgeable insurance professionals. We are committed to providing our customers with an "old-fashioned" level of service - whether assisting our policyholders following a loss, or with our independent agents to create the right insurance package to suit their clients needs.

At Your Service!

With a large network of independent agencies throughout the Northwest, we provide the strength, knowledge and expertise of a regional insurer with exceptional responsiveness and accuracy.

Remember, your independent agent doesn't work for just one company - they work for you!

The Sublimity Difference

Sublimity Insurance Company has been serving policyholders in the Northwest since 1896. Just as Sublimity was formed to meet the needs of local farmers then, we still tailor our personal insurance products to meet the needs of families today. Our goal is simple - to make people feel good about their insurance company.

Now conducting business in our third century, we continue to be guided by our founders' vision of protecting our customers' assets in a fair, responsive and friendly manner. Exemplary service will do more to distinguish us from our competitors than any other aspect of our business.

So, is it possible to feel this good about your insurance company? When you feel the ***Sublimity Difference***, it certainly is.
